Unit 2ARLI Bldg., South Point, Banay-banay
Cabuyao City Laguna, Philippines 4025
Tel #: +63 49 5446972 Email: fsasales@fsa-tech.com

Utilizing 5 types of purifying technology

Photo Plasma – Effectively reduces bacteria, viruses, mold, and VOC's and unpleasant odours

Deep UV Light – Reduces micro organisms that pass by the light, reducing regrowth and reducing odours

Negative Ions – Lowers concentration of harmful chemicals in the air by balancing the quantity of positive ions

Ozone – Reduces the presence of germs, viruses and mould whilst destroying VOC's including airborne and unpleasant odours

Photo Catalytic Oxidation process destroys VOC's catalytically on special surface material

INDUCT

Product Code: ID10, ID20, ID30, ID40, ID60, ID80

Power: 240v – 12vDC , 13-38 watts

Dimensions: L – 200-300 x W- 110 x H-275/460 mm

Warranty : One Year

Recommended Use:

Designed to be incorporated into **ventilation (HVAC) systems** for central air purification.

- Cleans and freshens the air throughout the property
- Low power consumption
- Removes chemical pollution VOC's, viruses and bad odours
- Ease of Installation
- Silent
- A healthy and odor-free purified air

Maintenance: Replace lamp every 12 months (normal HVAC conditions apply)
